

The screenshot displays the EASI WorkSpace interface. The top menu bar includes 'File', 'View', 'Edit', 'Tools', 'Window', and 'Help'. The main workspace is titled 'EASI - Default EASI WorkSpace [Landscape] [back up workspace]'. The 'Landscape' panel on the right shows a 3D perspective view of a terrain with a grid overlay. The terrain is mostly flat with some elevation changes. The grid lines are visible, and the overall scene is rendered in a simple, wireframe-like style.
